Märchen - Lebkuchenhaus Projekt

Directions:

1. Get into groups of 3-5. **Choose productive friends.**
2. Together you will write five paragraphs (double spaced) fairy tale. You may draw together different elements of fairy tales that you have heard to influence your writing.
Be creative but keep it school appropriate and child-friendly.
3. Then, upon having it approved, your group will choose a scene from the fairy tale and incorporate elements into a gingerbread house scene. This must contain the traditional elements of a gingerbread house including homemade gingerbread and lots of candy. The actual making of the gingerbread will happen at home but you will be given time in class to build it. Everything (except for the base that the house will sit on) must be edible!
